

INFORMATION FOR PATIENTS

Welcome to Kew General Practice

Welcome to our Practice. We hope that we are able to look after your needs and help you to achieve a full and healthy life while you are a member of this fully accredited practice. Please feel free to speak to any staff member or doctor about ideas or changes that you feel would improve the care that we give you.

The Doctors

Dr Paul Shortis

Paul grew up in East Kew and attended St Annes Primary School. He graduated with honours from Monash University in 2002 and spent 5 years working in Box Hill hospital and Geelong Hospital. During this time he completed rural rotations in Warrnambool, Bairnsdale and Lakes Entrance. Subsequently Paul commenced the general practice training program and completed his fellowship of FRACGP in 2009. He also assists two orthopaedic surgeons and works as an examiner for the Royal Australian College of General Practitioners. Paul has a special interest in chronic disease management, aged care, paediatrics, travel medicine and sports medicine in addition to all elements of general practice. When not at work Paul enjoys spending time with his family and chasing after his young son. Paul also enjoys cycling, athletics, hiking and skiing.

Dr Jason Chua

Jason graduated with honours from Monash University in 2002. He subsequently worked in hospitals and clinics around Melbourne and regional Victoria, and attained his Fellowship of the Royal Australian College of General Practitioners in 2007. He enjoys general family medicine and has a particular interest in childhood allergies, travel medicine and dermatology including skin cancer. He is an examiner for the RACGP and has previously been involved in running clinics in travel medicine. When not at work, Jason enjoys travelling, tennis and photography, but now spends most of his time trying to keep his four young kids out of mischief.

Dr Paul Flood

Paul, a 1975 Monash Graduate, completed nine years of postgraduate training in Australia and England followed by 14 years as a rural GP on Phillip Island. This encompassed research and teaching with Monash Centre for Rural Health and the College of GPs focussing on face-to-face and distance education. Life on Phillip Island also led to marriage and children (born at the local Bush Nursing Hospital). In pursuit of further teaching, travel and adventure, Paul and family sojourned in the United Arab Emirates from 1999 – 2005 where he held an academic and clinical appointment in Family Medicine at the National University in the oasis city of Al Ain. Following this wonderful academic and family adventure, the family returned to Australia in 2004 and Paul joined Kew General Practice. Ongoing learning and the richness of the breadth and depth of General Practice are key elements for Paul. When not at work, he enjoys bike riding, theatre, opera and travel.

Dr Jessica Chong

Jessica graduated from Monash University in 1997. In 2000, she completed the Diploma of The Royal Australia and New Zealand College of Obstetricians and Gynaecologists. She completed rural general practice training in Korumburra in South Gippsland. Before working at Kew General Practice, she worked in Melbourne's South East. Jessica is interested in general medicine, paediatrics, chronic disease management and women's health. She is able to provide maternity shared care with Mercy Hospital for Women and The Royal Women's Hospital. She enjoys travelling, baking and catching up with family and friends.

Dr Helen Vu

Helen graduated from Melbourne University in 1995 and has been practising as a GP since 2000. She worked for a short period in Wangaratta and joined Kew General Practice in 2010. Helen has an interest in women's health and children's health.

Dr Elissa Stafford

Elissa graduated from the University of Melbourne with honours in Medicine in 2004 and also holds a Bachelor of Medical Science for research. She worked at Austin Health, the Mercy Hospital for Women and in General Practice in rural and city areas of Victoria and in other areas of Australia. She is a competent and kind GP, interested in women's health, chronic disease, paediatrics and dermatology, along with all areas of medicine. She has three young children and enjoys reading and fitness.

Dr Tiffany Kwok

Tiffany, who grew up in Melbourne's eastern suburbs, graduated from Melbourne University with a medical degree in 2008 and has worked in General Practice for 12 years. She has an interest in chronic disease management, women's health, children's health and skin health. Tiffany also holds a certificate in aesthetic medicine. She can do Pap smears, insertion and removal of implanon, small excision biopsies, provide skin health advice and complete mental health care plans. In her spare time, Tiffany enjoys spending time with her two sons, husband and cavoodle and is often looking for the next new show on Netflix.

Dr Tim Hsu

Tim graduated from Flinders University, South Australia in 2013. Over the past 10 years, having worked at various locations across rural SA, Victoria, and Cairns in the disciplines of Rural Medicine, Emergency, and General Practice, he has developed special interests in skin cancers & minor procedures. He then undertook further educational courses on cutaneous surgery in the USA. Tim's artistic approach in skin cancer surgery aiming to achieve symmetrical outcomes and facial harmony has also led him down the paths of aesthetics medicine. Tim has multiple publications in international peer-reviewed journals, is a co-author of a medical textbook on scarring pathophysiology, and is an APTOS certified doctor in thread lifting procedures.

Dr Catherine Dodgshun

After completing her medical degree, Catherine attained a Diploma of Obstetrics from the Royal Australian and New Zealand College of Obstetricians and Gynaecologists and Fellowship of the Royal Australian College of General Practitioners. Catherine takes an active interest in understanding each individual and their context, and aims to provide comprehensive care to people of all ages. Catherine welcomes the opportunity to assist you with the management of your health care needs.

Dr Stephen Bennie

Stephen graduated from Melbourne University in 1984, successfully completing the Family Medicine Program after extensive GP training, and has worked in East Kew as a GP since 1990. He has broad experience in all areas of practice but especially paediatrics, aged care, disability and minor surgery. Outside of work, Stephen loves creating art, the performing arts, golf and spending time with his family.

Dr Timothy Gray

Tim graduated from the University of Melbourne in 1984 and has worked in general practice since 1997. Prior to that, Tim trained at the Alfred and Royal Children's Hospitals as well as the Peter James Geriatric Centre. He has special interests in preventative medicine, paediatrics, immunisation, aged care, psychogeriatrics and men's health. He attends a number of local nursing homes and home visits. Tim is married to Lyn who is an Occupational Therapist and they have three children. Tim is a musician in his spare time, playing viola, piano and organ.

Dr Lesley Seow

Lesley graduated from Melbourne University and gained her fellowship with the Royal Australian College of General Practitioners in 2000 after training at Austin Health, Royal Talbot, Anne Caudle Centre in Bendigo, The Northern Hospital and in Shepparton. Lesley worked in a local general practice for 10 years before joining East Kew Clinic for a further 7 years. Lesley has now relocated with Dr Stephen Bennie and Dr Timothy Gray to Kew General Practice. Lesley is a mum of two school aged children, and a part-time GP who enjoys the continuity of care that general practice allows, as well as its diversity. She enjoys the challenge of managing chronic health issues, aged care, preventative health and, of course, seeing patients of all ages.

Monday to Friday	8.30am – 12.30pm
------------------	------------------

When We Are Closed

Ring the normal number – 9859 8756 and a recorded message will tell you what to do. A locum service is available after hours on 13 74 25.

How To See Your Doctor

The doctors at this Practice work together and we will, with your permission, consult each other in difficult cases. We will make every effort to see that you get to consult with the doctor of your choice. You will be able to see one of the other doctors if your own is not available.

All surgery consultations are by appointment. We will, however, make every attempt to see you immediately if you need urgent care. We ask that you make a double appointment with your doctor if you think you will require more time than usual, for example, a medical, a complex condition, a travel medicine consultation, or you have three or more issues to discuss.

When you arrive at the Practice, please check in with reception staff before sitting down. This is also a good time to update any change of address or phone number.

Repeat Prescriptions and Referrals

Please note that all new referrals require a consultation with a GP. Doctors have a duty of care to consult and review a patient before providing a prescription or updated referral. In circumstances where a doctor is prepared to provide a script or referral outside of consultation, a fee of \$20 applies.

Fees Policy

We do not bulk bill any patients except Veteran Affairs patients. The rates are displayed at the front desk. Payment is requested at the time of consultation where possible. We have EFTPOS facilities for your convenience. If you take an account, we request payment within 7 days. Please note, payment can be accepted and processed over the phone with a credit card as well as via direct deposit. A non-attendance fee may apply if 24 hours' notice is not given.

Consultation Fees

Standard Visit (6-15 mins)	\$98	Weekend Standard Visit	\$108
Standard Visit (Discount/Pension)	\$88	Weekend Long Visit	\$178
Longer Visit (15-30 mins)	\$158	Non-Attendance Fee (Standard Visit)	\$40
Longer Visit (Discount/Pension)	\$138	Non-Attendance Fee (Long Visit)	\$60
Very Long Visit (> 45 mins)	\$218	Mental Health Care Plan	\$178
Very Short Visit (< 6 mins)	\$48	Mental Health Care Plan Review	\$158
Telehealth (short)	\$48		
Telehealth (standard)	\$98		

Test Results

On most occasions, we will request that you return for results if we have ordered them for you. This cuts down on communication errors and misunderstanding. If you ring for results, please leave a message with our receptionists and they will pass the details on to your doctor. We also have a recall system to remind you of tests, investigations or appointments that need to be arranged in the future. Please let us know if you do not wish this to occur for you.

Emailing Correspondence

Under the Privacy Act and the Accreditation Standards, we must obtain patient consent before sending any medical records, results, referrals, etc via email. We must also confirm email addresses prior to emailing any personal documents. Correspondence can also be posted, faxed or collected from reception as per your request.

SMS Correspondence

Kew General Practice uses SMS messages for appointment reminders, clinical recalls and occasionally for invoices, Medicare benefit assignment forms and other health reminders using AutoMed. Please feel free to discuss this with your doctor if you have any concerns. Also, please inform reception if you do not wish to receive messages in this way.

Please be reassured that these texts will ALWAYS come from the same mobile number – 0447 489 201. We encourage you to add this mobile number to your phone book as “Kew GP Notification” so you can identify and feel confident that the texts are coming from Kew General Practice.

Telephone Calls

The doctors try to limit calls during a consultation. If you wish to speak with your doctor, please leave a message with the receptionists and they will pass on the details. The doctors receive many phone calls each day for a variety of reasons so please be patient. If your call is genuinely urgent, then please let our staff know this when calling and we will prioritise it for you.

Change of Details

If your contact details have recently changed or you have received a new Medicare Card, please inform our receptionist on your arrival so we can update your details in our system.

My Health Record

Your records are a valuable and important resource for your health care. We follow the guidelines set out in the privacy legislation, which is outlined in the brochure “Personal Information, Privacy and Your Doctor”.

Feedback

We very much value feedback and input as it helps us to continually improve our Practice.

If you have any feedback for us, positive or constructive or you have identified any areas that may need addressing or improving in our practice, we invite you to complete our feedback form. The feedback form can be accessed by scanning the QR code provided on our website or on the posters in our practice waiting room. Paper forms are also available from our Reception Team. You can remain anonymous if you choose or leave your name should you wish to do so.

Complaints

We prefer to handle all complaints “in house” and we encourage you to either place your complaint in writing or feel free to discuss your issue with Dr Paul Shortis, Dr Jason Chua (Practice Principals) or Bronwyn Cornish (Practice Manager). Whilst complaints at this Practice are rare, most have been over matters of communication or about situations that we have since rectified with the help of the patient involved. If your complaint has not been resolved or you wish to discuss it with someone outside this Practice, then we suggest you contact the *Victorian Health Complaints Commissioner* on 1300 582 113.
